DE

Pflanzen sind die Basis des PLA-Materials, das einen sehr geringen CO₂-Fußabdruck hat und schon vor der Produktion zur CO₂-Einsparung beiträgt.

Pflanzenzucker wird separiert - für 1 kg PLA benötigt man nur 1,6 kg Zucker. Mittels Fermentation und Synthese entsteht PLA Harz. Mit unseren klimazertifizierten Produkten tragen wir dazu bei, dass der Co₂-Ausstoß mithilfe von Klimaschutzprojekten in doppelter Menge wieder eingespart wird.

EN

PLA is made from plants and has a very low carbon footprint. It helps reduce CO₂ emissions even before production. Plant sugar gets extracted and PLA resin is produced by fermentation and synthesis. By investing in climate protection projects, we contribute to reducing CO₂ emissions.

kg CO₂-equivalent per kg polymer
source: www.lca.plasticseurope.org

FR

Le PLA est fabriqué à partir de plantes et a une très faible empreinte carbone. Il permet également de réduire les émissions de CO₂ avant même la production. Le sucre végétal est séparé - seulement 1,6 kg de sucre est nécessaire pour 1 kg d'APL. La résine PLA est produite par fermentation et synthèse. En investissant dans des projets de protection du climat, nous contribuons à la réduction des émissions de CO₂.

ES

Las plantas son la base del material PLA, que tiene una huella de CO₂ muy baja y contribuye al ahorro de CO₂ incluso antes de la producción. El azúcar de la planta se separa: sólo se necesitan 1,6 kg de azúcar para 1 kg de PLA. La resina de PLA se produce por fermentación y síntesis. Al invertir en proyectos de protección del clima, contribuimos a reducir las emisiones de CO₂.

IT

Il PLA è fatto estratto dalle piante e ha un' impronta di carbonio molto bassa. Aiuta anche a ridurre le emissioni di CO₂ ancora prima della produzione. Lo zucchero delle piante è separato - solo 1,6 kg di zucchero è necessario per 1 kg di PLA. La resina PLA è prodotta per fermentazione e sintesi. Investendo in progetti di protezione del clima, contribuiamo a ridurre le emissioni di CO₂.

PHILOSOPHY

Wir sind auf einer Reise zu mehr Nachhaltigkeit

Wir arbeiten klimaneutral!

Die Zukunft muss klimaneutral werden! Klimaneutralität bedeutet, ein Gleichgewicht zwischen Kohlenstoffemissionen und der Aufnahme von Kohlenstoff aus der Atmosphäre herzustellen. Wir sind uns unserer Verantwortung bewusst und möchten dazu beitragen, dass Europa der erste klimaneutrale Kontinent wird.

We work climate neutral!

The future must become climate neutral! Climate neutrality means achieving a balance between carbon emissions and the absorption of carbon from the atmosphere. We are aware of our responsibility and want to contribute to Europe becoming the first climate neutral continent.

CHIC.MIC CUSTOMIZED

SUSTAINABILITY & CUSTOMER ENGAGEMENT

Individualisierungen

Vorausschauend zu handeln, Ressourcen zu schonen und zuverlässig höchste Qualität von der Planung bis zur Fertigstellung zu bieten, ist unsere DNA. Mit den maßgeschneiderten Produkten von chic.mic möchten wir noch einen Schritt weiter gehen und gemeinsam mit Ihnen Produkte schaffen, die Kunden ansprechen, ihnen einen Mehrwert bieten und die Aufmerksamkeit erhöhen.

Gerne informieren wir Sie persönlich über unsere Individualisierungs-Angebote.

Acting with foresight, conserving resources and reliably offering the highest quality from planning to completion is our DNA. With chic.mic customized products, we would like to go a step further and work with you to create products that engage customers, offer them added value, and raise awareness.

We would be pleased to inform you about our customization offers.

JOIN US ON OUR JOURNEY
TO A MORE SUSTAINABLE
FUTURE.
