THE BEST WAY TO DRINK WATER!

Retap is a Danish hydration company founded in 2009. We offer **Retap Drinkware** – reusable bottles, carafes and water glasses especially designed to drink tap water from, and we offer **Retap Infuse** – instant flavour sticks designed to provide ordinary tap water with a natural hint of fruit and berries.

We believe the best way to drink water is, refilling reusable drinkware with tap water and perhaps adding a flavour stick for a hint of natural flavour.

We call this **The Retap Way**.

The Retap Way is more than a way of drinking water. It is a way of thinking, a way of **rethinking** the way we drink water. It is easy, inexpensive, and the most eco-friendly way to stay hydrated.

STAY HYDRATED - THE RETAP WAY

THE RETAP STORY

Retap was founded by three enthusiastic entrepreneurs in 2009 who were initially influenced by reading about the accumulation of plastic trash in our oceans consisting mainly of plastic bottles.

THE ECO-FRIENDLY WATER BOTTLE

“At the UN climate meeting back in 2009 in Copenhagen (COP 15), we became more aware of the negative impact of bottled water on our environment. We felt that something had to be done. We set our minds to designing a bottle especially made for drinking tap water. A year and many designs later in the summer of 2010, we released the Retap Bottle, and we

are very proud of this eco-friendly and beautiful product”, explains Lars Brøndum Petersen, one of the founders.

A SUSTAINABLE WAY TO HYDRATE

Since then more bottle sizes and bottle accessories have been added to the Retap product range along with a carafe and water glasses.

The new product line **Retap Infuse** adds another milestone to the history of Retap.

Retap Infuse is a collection of instant flavour sticks, designed to provide ordinary tap water with a natural hint

of fruit and berries. The idea behind the product is simply to make the experience of drinking tap water more exciting. Compared to ready-to-drink products in disposable plastic bottles, Retap Infuse is a more sustainable way to stay hydrated.

“As Retap Infuse is an instant product, the consumer can mix it with tap water e.g. in a reusable Retap glass bottle, thus reducing the need for plastic packaging. Moreover, the environmental impact of the transportation and cooling of bottled water before consumption is removed. You simply use tap water”, says Lars Brøndum Petersen.

THE STORY CONTINUES

Throughout the years Retap has built a strong network of resellers and distributors alongside of establishing offices in both Denmark and the USA.

Retap products are sold in more than 55 countries worldwide, and are available in a wide selection of stores from The Container Store, Target and Anthropologie in the USA to Selfridges in London and Illums Bolighus in Copenhagen. Retap products are available in fine gourmet and promotional gift stores in cities like Sydney, Tokyo, Paris, Madrid, Berlin, Amsterdam and Stockholm as well as online at The Grommet, Ebay, Amazon, and Avocadostore. See the full list of resellers on retap.com.

And the story continues...

JOIN THE RETAP WAY

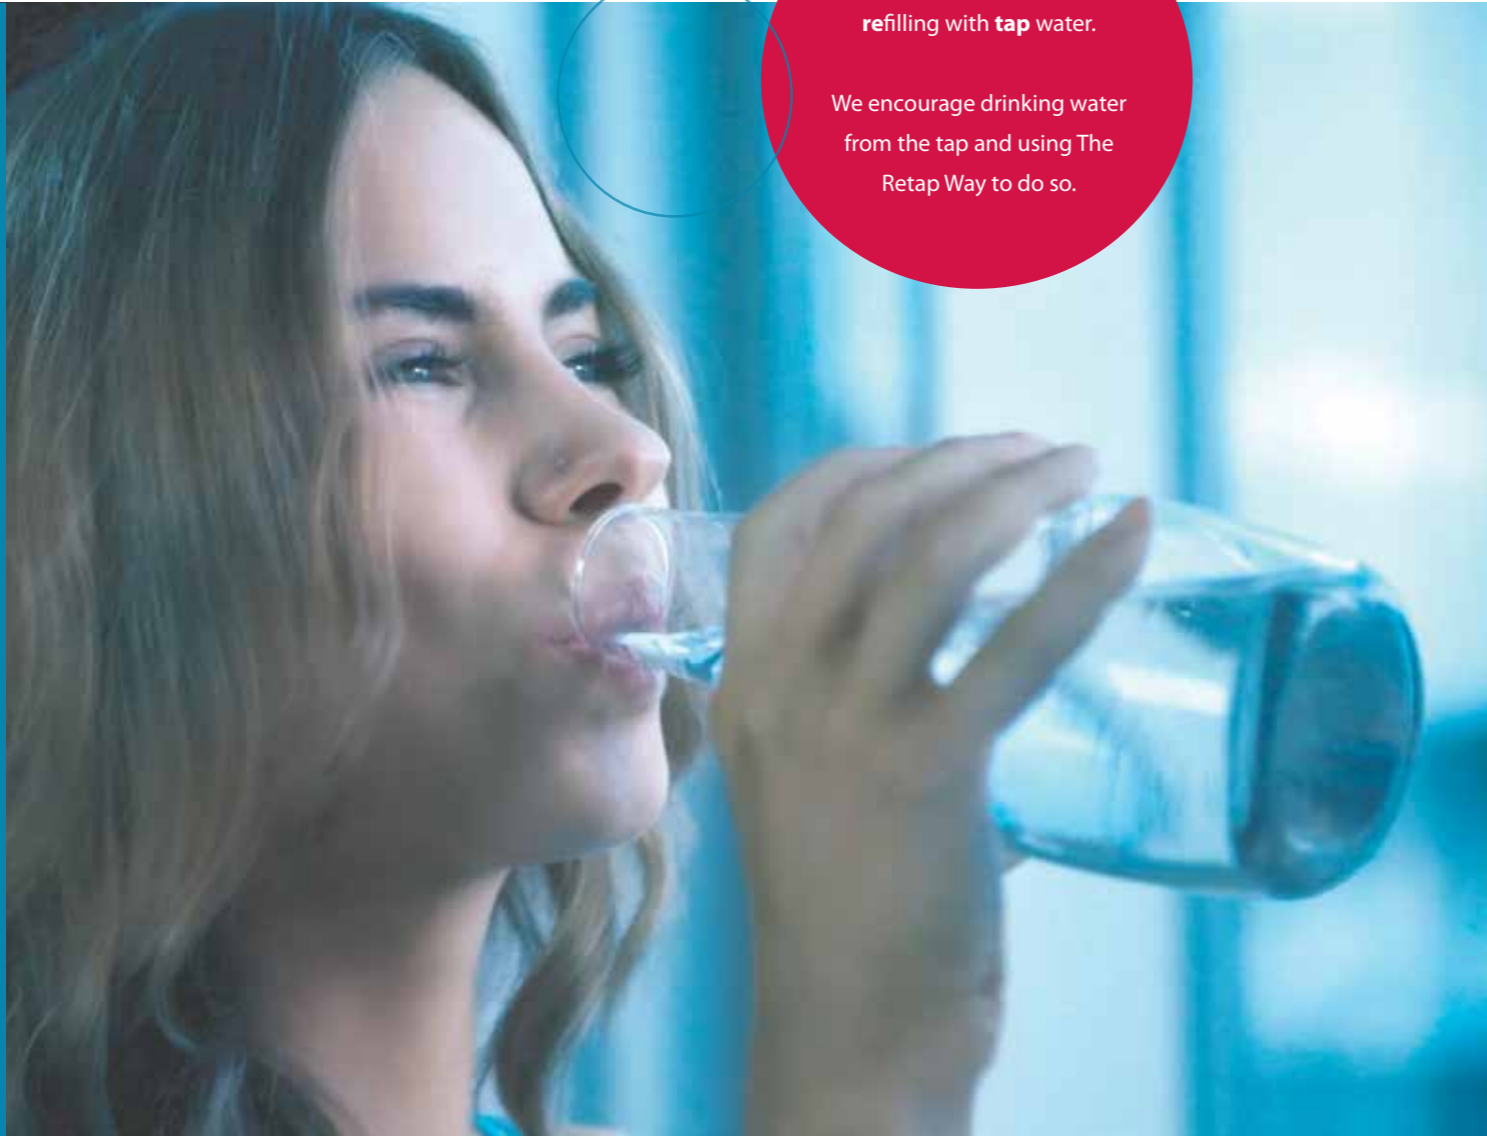

We want to motivate everyone to use The Retap Way when staying hydrated. That is why we offer custom print on our Retap products to companies, because they can make an even bigger environmental impact.

Our custom printed Retap products have been chosen as promotional gifts by Nike, CBS Sports, the MTV Movie Awards, Vodafone, LEGO, Maersk, Rambøll, Marriott Hotels, HP, Saxo Bank, Eurosport, Bluewater, Deloitte, Funding Box, Søstrene Grene, Innogy, Bosch, TDC, Miele, KPMG, Amazon, Audi, Suzuki, Novo Nordisk, Zeiss, Grundfos, Grohe, Waterlogic and Swatch. Just to name a few.

Retap stands for
refilling with **tap** water.

We encourage drinking water
from the tap and using The
Retap Way to do so.

STAY HYDRATED

At Retap we want to improve the way you stay hydrated. Drinking water and staying hydrated is an activity that deserves more attention. We drink water every day, so it should be an experience we enjoy.

We encourage awareness of the most relevant aspects of drinking water: our **personal health**, **sustainability**, and **great taste**. Water is the essence of life and should not be exploited in a way that harms the environment.

We encourage drinking water from the tap and using reusable, refillable drinkware to do so. Whether you prefer your water filtered or straight from the tap, using the The Retap Way is easy, inexpensive, and the most eco-friendly way to stay hydrated.

RETAP MOMENTS

It is often a challenge creating a healthy habit of drinking enough water during a busy day.

A MOMENT TO DISCONNECT

We recommend taking a Retap Moment – a 10 minute “time-out” during the day where you take a moment to enjoy a drink of fresh cold tap water.

A Retap Moment is a moment to disconnect. A moment to relax and enjoy a drink of refreshing water.

A PART OF YOUR DAILY ROUTINES

Keep a Retap Bottle close by and you will automatically be reminded of

taking a Retap Moment every once in a while. By making Retap a part of your daily routines, you will see that the little time it takes to fill up a Retap Bottle and enjoy drinking water from it, is more than worth it.

This will help you reach your hydration goals. If you find water bland and tasteless, infuse your water with fresh slices of fruit or add a Retap Infuse instant flavour stick for a natural hint of fruit and berries.

In a few minutes, you will find yourself full of renewed energy. That is exactly what a Retap Moment is all about.

A Retap Moment is a moment to disconnect. A moment to relax and enjoy a drink of water.

The Retap Way is the combined use of our reusable Retap Drinkware together with our great tasting Retap Infuse flavour sticks.

THE RETAP WAY

Staying hydrated **The Retap Way** is using our reusable Retap Drinkware together with our great tasting Retap Infuse flavour sticks.

The Retap Way is our sustainable hydration alternative to water and ready-to-drink beverages in plastic bottles. We believe it is the best way to drink water.

Retap Drinkware is reusable bottles, carafes and water glasses especially designed to drink tap water from either filtered or straight from the tap. Refilling reusable drinkware is easy, inexpensive, and the most eco-friendly way to drink water.

Retap Infuse is a collection of instant flavour sticks, designed to provide ordinary tap or filtered water with a natural hint of fruit and berries.

By refilling reusable drinkware from Retap and perhaps adding a Retap Infuse flavour stick for a hint of natural flavour, you help lessen the environmental impact of transporting bottled beverages in plastic bottles.

Transporting plastic bottles over long distances costs energy and disturbs the natural cycle of water. Staying hydrated **The Retap Way** is an easy way to support the environment.

THE RETAP WAY...

YOU ONLY NEED TO REFILL TWICE

Independent research by Carbon Footprint Ltd. has shown that you can save 30.2 kg CO₂ every year when using a Retap Bottle 05 compared to using a standard 0.5 plastic bottle.

This amount of CO₂ equals the production of 84 new Retap Bottles. The Carbon Footprint of a Retap Bottle 05 is 0.358 kg CO₂. This includes all the carbon emissions arising during the lifecycle of the product.

The research also shows that you only have to refill a Retap Bottle 05 two times, before you have a lower environmental impact than when drinking from a plastic bottle.

SUSTAINABLE HYDRATION

Compared to water and ready-to-drink beverages in plastic bottles, The Retap Way is a more convenient and sustainable way to hydrate.

Stay hydrated The Retap Way and:

save energy and CO₂ emission when switching from water and beverages in plastic bottles.

save money by **not** cooling plastic bottles in a refrigerator. Retap products can be used with tap water and stored at room temperature.

save time by **not** handling, storing and returning empty plastic bottles.

...YOUR WAY

Staying hydrated The Retap Way is an easy way of doing something good for the planet. It is a simple act of personal environmentalism.

JOIN OUR WAY OF DRINKING WATER

We want to motivate everyone to use The Retap Way when staying hydrated.

We invite companies to join our way of thinking and drinking water. Companies can make an even bigger environmental impact by replacing plastic bottles with Retap Drinkware and offering Retap Infuse as an alternative to ready-to-drink beverages and flavoured water in plastic bottles.

PROMOTE YOUR OWN WAY

We even offer companies to get their own custom print on Retap products.

Your employees and customers will value drinking water The Retap Way with your own custom print showing your company's awareness of people's health and a sustainable environment.

Reduce costs and waste and feel good about taking an easy step to support the environment by replacing all plastic bottles in your corporate offices.

RETAP INFUSE

Retap Infuse is a collection of instant flavour sticks for making flavoured water.

Retap Infuse is made from real fruit extracts containing only natural flavours and colours. It is low in sugar and calories.

A HINT OF NATURAL FLAVOUR

Retap Infuse adds a refreshing hint of natural fruit and berries to tap water, making it even more enjoyable to stay hydrated.

Retap Infuse is a supplement to drinking water and an alternative to drinking bottled flavoured water.

Stay hydrated during the day at home, at the office, or on the go with Retap Infuse.

RETAP INFUSE

FOUR DELICIOUS FLAVOURS

The Retap Infuse Collection consists of four delicious flavour infusions:

- Lemon Lime
- Cranberry Orange
- Elderflower Ginger Lime
- Raspberry Mint.

The four Retap Infuse instant flavour sticks are all made from real fruit extracts containing only natural flavours and colours.

Moreover, they are low in sugar and calories – only approx. 2 g of sugar and 8 kcal per 100 ml prepared beverage.

CONVENIENT SINGLE-SERVE STICKS

The convenient single-serve stick pack makes it easy for you to get flavoured water in an instant. Just add to 250 ml of cold tap water in a Retap Bottle or a glass. Shake or stir until dissolved and enjoy the tasty flavour infused water.

77%
agrees that Retap Infuse has a great taste.

Source: Retap Infuse Consumer Survey - July 2017
- 216 respondents.

FLAVOURED WATER IN AN INSTANT

FOR CONSUMERS AND BUSINESSES

Retap Infuse is available in Consumer Boxes of 10 stick packs containing one flavour.

For businesses, a Collection Box is available including a total of 200 stick packs – 50 stick packs of each of the four flavours.

AT HOME, AT WORK, OR ON THE GO

Retap Infuse is the perfect solution for consumption at home or on the go as the small stick packs fit easily into a hand or computer bag together with a reusable water bottle.

Offering Retap Infuse at the work place is a great way to encourage employees to drink more water. Place a display of Retap Infuse in the office kitchen close to tap water, directly at the individual work desk or bring it to meetings together with bottles of cold tap water.

86%
believes that Retap Infuse will help them **drink more water** during the day.

Source: Retap Infuse Consumer Survey - July 2017
- 216 respondents.

RETAP DRINKWARE

Retap Drinkware brings elegance and sophistication to your wardrobe, office desk, kitchen countertop, and dinner table.

FUNCTIONAL SCANDINAVIAN DESIGN

The simple and functionalistic Scandinavian design guarantees a great water flow. Retap Drinkware was created because we believe that drinking water should be easy and enjoyable.

STRONG AND LIGHT-WEIGHT

Retap Drinkware is made of high strength, borosilicate glass, the same

durable glass used in laboratories and high-end cookware.

Borosilicate glass meets the highest hygienic standards. It is a pure material without lead or cadmium and cannot contaminate your water and is 100% safe for your personal health.

Borosilicate glass is heat-resistant, light-weight and sustainable, making Retap Drinkware both functional and durable.

EASY TO CLEAN

Retap Drinkware is dishwasher, microwave and refrigerator safe.

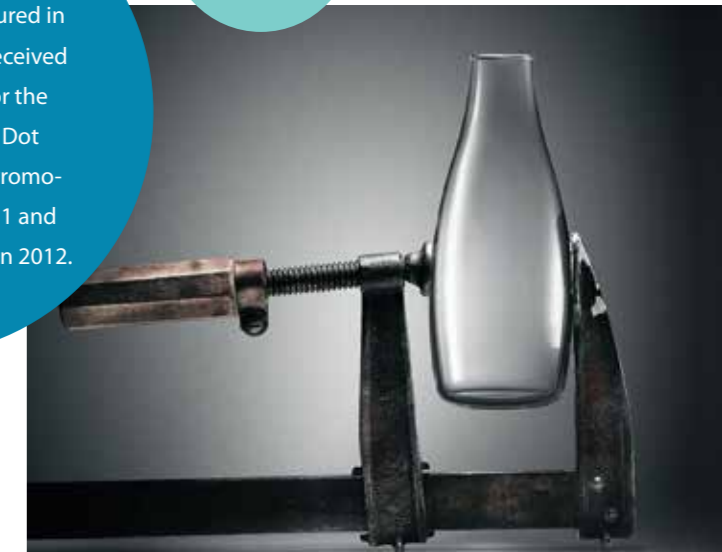

It is designed without any edges where bacteria can accumulate and grow, making it easy to clean in the dishwasher.

REFILL WITH TAP WATER

Retap Drinkware is reusable bottles, carafes and water glasses especially designed to drink tap water from either filtered or from the tap.

Refilling reusable drinkware is easy, inexpensive, and the most eco-friendly way to drink water.

Retap Drinkware is designed in Denmark and manufactured in Europe. Retap proudly received three design awards for the Retap Bottle. The Red Dot Design Award and the Promotional Gift Award in 2011 and the Good Design Award in 2012.

RETAP BOTTLES

Retap Bottles are especially designed to give the best drinking experience.

AWARD-WINNING DESIGN

Retap Bottles are comfortable to hold, sealed against spilling, and our award-winning design insures that you will enjoy every sip.

When drinking from a Retap Bottle you will notice how pleasant it is to drink directly from the bottle. This is mainly because of the shape and the material.

The size of the bottle opening targets the mouth and eliminates overflow to the sides; the slope of the neck

regulates the flow, delivering just the right amount of water at all times.

AVAILABLE IN THREE SIZES

The bottles are made of light-weight, durable borosilicate glass, which makes them convenient to carry even when filled.

The Retap Bottles are available in three sizes; 300 ml, 500 ml, and 800 ml.

CHOOSE BETWEEN 18 LID COLOURS

Personalise your bottle with 18 lid colours or an exclusive walnut wood lid. The opening on all three Retap Bottle sizes is the same size. This

means that you can change lids between all bottle sizes.

Winner 2012

The beautiful design of the Retap Carafe adds visual interest to any table setting and serves as a subtle reminder to stay hydrated. Complement the carafe with the new matching Retap Water Glasses.

NEW

RETAP CARAFE & WATER GLASSES

The Retap Carafe can contain 1.2 litres. This makes the carafe suitable for filling at the tap and bringing to the table to serve several people.

SERVE WITH EASE

The carafe has the similar simple and functionalistic Scandinavian design as our awarded Retap Bottles. This guarantees an optimal water flow and balance.

The beautiful design adds visual interest to any table setting and serves as a subtle reminder to stay hydrated.

It is made from borosilicate glass, which is strong and light-weight,

making the carafe convenient to pour from even when filled.

The large opening makes it easy to clean. The carafe is both dishwasher and microwave safe and easily fits in the refrigerator door.

COMPLEMENTARY WATER GLASSES

The Retap Carafe can be complemented with matching water glasses.

The Retap Water Glasses are based on the same elegant glass material and Scandinavian design principles.

They are ideal for serving table water over dinner or serving up refreshing

water at business meetings. The water glasses hold up to 250 ml.

CHOOSE BETWEEN 6 LID COLOURS

Personalise your Retap Carafe with 6 distinct lid colours or an exclusive walnut wood lid.

|  Dark Blue |  Forest Green |
|  Black |  Walnut Wood |
|  Grey | |

RETAP LID COLLECTION

The Retap Lids are designed and made in Denmark. The look and feel is fine-tuned to the smallest details. An essential feature is that the lid is suitable for reuse. It is designed without any edges where bacteria can accumulate and grow.

RETAP STANDARD LIDS

The material of the standard lids is a thermoplastic elastomer (TPE). It is 100% safe as it is free of PVC, bisphenol A (BPA) and phthalates.

We carefully selected this material due to its low environmental impact and because of its physical abilities. Most important was the fine-tuning of

the elasticity. The lids need to stretch out to smoothly fit the Retap Bottle but also be solid enough, so they do not fall off. TPE is resistant to heat until 120 °C before deforming. That is why you can simply wash the lids in a dishwasher

The standard lids are available in 18 colours including the two new trendy colours **Petroleum Green** and **Peach** for the Retap Bottle and for the Retap Carafe the standard lids are available in 6 colours. The colourful lids are perfect for personalising your Retap Bottle or Carafe to your personal style or company brand.

RETAP WOODEN LID

In addition to the standard lids, an exclusive lid made from walnut wood is also available. The wooden lid is handcrafted by a traditional craftsman on the island of Funen in the heart of Denmark. Each lid is unique and of excellent quality.

The wooden lid makes your Retap Bottle or Carafe look even more elegant. The wooden lid does not seal tight and is thus very easy and convenient to take off, making it ideal for conferences, meeting rooms, restaurants and dinner table use.

The new trendy lid colours Petroleum Green and Peach are available from March 2018

RETAP BOTTLE SLEEVE

Protect your Retap Bottle with an elegant, knitted sleeve that suits our Scandinavian Design principles: simple and functional.

A GOOD GRIP FOR ON-THE-GO

The Retap Sleeve is made from eco-certified elastane that smoothly follows the curves of the Retap Bottle.

It is pleasant to hold and gives a good grip. The attached strap lets you carry your Retap Bottle with you, on a finger or two.

IN FIVE COLOURS FOR ALL BOTTLES

The sleeve is available for all three Retap Bottle sizes in five vibrant colours.

The sleeve is washable at 40 °C.

RETAP CUSTOM PRINT

THE RETAP WAY - YOUR WAY!

We want to motivate everyone to use The Retap Way when staying hydrated. That is why we offer custom print on our Retap products to companies, because they can make an even bigger environmental impact.

We print logos and taglines or other design elements on the Retap products. It is an elegant way of showing your awareness of personal health, sustainability, and great taste.

PROMOTE YOUR BRAND REPEATEDLY

Your employees, customers or guests will value drinking water The Retap Way with your own custom print.

Every time they drink water. Custom print on Retap products is perfect for promoting your brand several times a day. It even has the potential to provide years of brand awareness, being reused by loyal receivers and constantly reminding them of your brand every time they drink a sip of water.

With low Minimum Order Quantities even small businesses can benefit from The Retap Way with custom print.

IN EVERY POSSIBLE WAY

Retap products with custom print can be used for multiple purposes - in every possible way.

Retap products are a valuable business gift both as a premium give-away for customers or as a unique employee gift. They give style and value to meetings and conferences. They create awareness of the cause at benefits and special events. They highlight the celebration at anniversaries and promote happenings and festivals. They bid welcome to guests at restaurants and hotels.

And they are of course treasured by employees in corporate offices every day, emphasising the company values and the importance of staying hydrated in a sustainable way.

RETAP DRINKWARE CUSTOM PRINT

Retap Drinkware is made from high quality material with a high quality and long-lasting print. It can be reused over and over again without losing its value. With a wide range of different lid colours, there is always a colour that fits your company profile.

PRINTABLE AREA

The printable area on the Retap Drinkware is a long strip on the widest part of the product.

The area does not go all the way around the product, there is a gap of about 0.5 cm.

UP TO FOUR COLOURS OR "FROSTED"

Retap Drinkware is printed with a silk screen printing technique. We print all colours from the Pantone Matching System (PMS) or "frosted" which looks like engraving/lasering on the glass. We print up to 4 colours or "frosted".

RETAP INFUSE CUSTOM PRINT

Retap Infuse is made from high-quality ingredients delivered in a high quality digitally printed stick pack. It will be consumed repeatedly day after day, constantly reminding the consumer of your brand and associating it with innovative and great taste.

PRINTABLE AREA

The printable area on Retap Infuse is a long strip on the front of the stick pack. The area does not go all the way up or down as space for flavour identification and sealing is needed. The back side is reserved for nutrition information required by EU law.

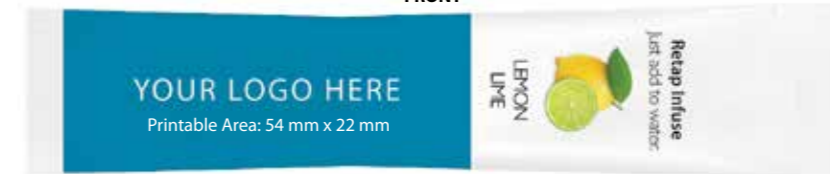

DIGITAL PRINTING IN CMYK COLOURS

Retap Infuse is printed with digital printing technique. We print in CMYK colours, both solid colours and gradients. It is not possible to print in colours from the Pantone Matching System (PMS).

THE RETAP WAY...

...FOR YOUR EMPLOYEES

Companies can make an even bigger environmental impact by replacing plastic bottles with Retap Drinkware and offering Retap Infuse as an alternative to ready-to-drink beverages and flavoured water in plastic bottles.

Your employees will value drinking water The Retap Way with your own custom print showing your company's awareness of people's health and a sustainable environment.

DRINK MORE WATER

When it comes to your employee's health and wellbeing nothing is more important than water. Yet, most of us are not drinking enough water because

we are either too busy or simply do not like how it tastes. This can be a particular problem when you have deadlines to meet during the day.

If hydrating has become more of a chore rather than a healthy habit in your company, The Retap Way can be an easy way to stay hydrated throughout the work day.

Print your company values or a motivational text on a Retap Bottle and inspire your employees to drink more water. You can also give them a bottle as a holiday gift and encourage them to stay hydrated outside of the office.

Encourage drinking more water by placing a display of Retap Infuse in the office kitchen close to tap water or directly at the individual work desk.

A custom printed Retap Bottle with your company values or a motivational text makes the bottle not only functional, but also a great tool for internal branding.

THE RETAP WAY...

...AT YOUR MEETINGS

Serving water at business meetings provides a welcoming atmosphere and shows that you care about small details which create a positive impression of your business.

STYLE AND VALUE TO THE MEETING

The Retap Carafe elegantly shows potential customers and business relations your awareness of personal health, sustainability, and great taste.

It gives both style and value to your meetings and to your own products and services too.

With a custom print on the Retap Carafe, the products and services that you provide your customers and the value that you deliver will be replicated in the high quality of the promotion items you use.

SHOW WHAT YOU STAND FOR

The high quality of the Retap Carafe, the values associated with it, linked together with your own brand communication spells out exactly what you stand for and that customers can confidently do business with you.

The Retap Carafe is perfect for business meetings to serve many people.

Print your logo on the Retap Carafe to show customers that the quality and value of your products and services are as high as the promotion items you use.

THE RETAP WAY...

...AT YOUR CONFERENCES

Access to water during a long conference is essential for the attendees to stay hydrated.

VERSATILE CONFERENCE USE

The Retap product range is suited for any conference. The Retap Carafe and Water Glasses are great for self-serving during breaks or lunch while the Retap Bottle 05 is great as a table bottle during the conference sessions. Combine the table bottles with some Retap Infuse flavour sticks to keep attendees alert and refreshed during the long conference afternoons.

Make the products available for all attendees to collect at the entry to the

conference room. Place water coolers with chilled, filtered water around the conference area for attendees to refill the bottles during the conference.

CREATES VALUE DURING AND AFTER

Add a custom print on the Retap products and use them as a take-home item for the attendees.

Your logo will stand out on a high quality product and will have a very powerful recall effect. Your branding will be extended beyond the conference as attendees use the products at work and at home afterwards.

the Retap Bottle 05 is great as a table bottle during the conference sessions. Combine the table bottles with some Retap Infuse flavour sticks

THE RETAP WAY...

...AT YOUR EVENTS

Retap products are great promotional items for events, anniversaries or happenings. They automatically become a topic of conversation and create the kind of attention your event deserves.

A TREASURED REMINDER

With a Retap product as your event give-away you will be handing out something that is unique and really valuable to your audience.

A well-thought-out giveaway is not only useful for your audience, but will also reinforce your brand.

Custom print on Retap products is perfect for promoting your brand several times a day. It even has the potential to provide years of brand awareness and become a treasured reminder that will last long after the event itself has ended.

An event give-away is an opportunity for you to cause a long-lasting impression on your audience.

Custom print on
Retap products is
perfect as an event
give-away.

THE RETAP WAY...

...FOR YOUR GUESTS

When you look to add value for your guests, there can be nothing more valuable than the water we drink daily – especially after a long journey.

BID WELCOME WITH WATER

Bid guests welcome to your restaurant or hotel with fresh, cold water.

The Retap Carafe and Water Glasses are perfect for restaurant use. The beautiful design adds visual interest to any buffet or dinner table. With a wide range of different lid colours and custom branding possibilities, you can capture your restaurant's unique style.

SHOW SOME COURTESY

Offer your guests a courtesy tray in the hotel room with Retap Bottles and Retap Infuse flavour sticks.

It is a quick and effective way to show your high level of service and give your guests a positive first impression.

Add a custom print on the Retap products and offer them as a take-home gift for your guests. They will be a daily reminder of the great moments spent at your hotel. Your hotel will stand out amongst the competitors and be associated with high quality and a great service level.

Offer your guests a courtesy tray in the hotel room with Retap Bottles and Retap Infuse flavour sticks.
